Northrop Loom Repairs

TRADE-MARK REGISTERED

We again call attention to the importance of purchasing Northrop loom repairs of the makers of the looms. We have spent thousands of dollars in fitting up moulding machines to insure the most uniform castings possible. It is false economy to buy such repairs of job foundries or other outside sources of supply.

Customers who purchase of us avoid the troubles incident to misfits, hard castings and the resultant bad cloth in the weave room.

We carry several hundred tons of finished loom repairs in stock for the convenience of our customers.

Woonsocket Roving Frame

For more than a generation we have been producing a Roving Frame that has demonstrated its ability for hard and long service. The Chain Drive, —eliminating the geared Horse Head—Ball Bearing Rolls, light running frame—all contribute to make ours a speeder of the highest type.

The same high standard of quality is found in our

Drawing Frame

Through specialization in these two types of cotton mill machinery we are enabled to produce machines that are absolutely dependable.

Combination Beam or Ball Warper

Twenty-five years specialization in Warping Machinery has given us a position of leadership in this line.

For years the name Entwistle on Warpers has been recognized as a guarantee of simplicity, practicability and efficiency.

This machine is practically the same as our standard Ball Warper except that it is arranged with a cylinder so it can be converted from a Ball Warper to a Beam Warper by simply removing the Balling Machine.

May we send you a catalog on Warping Machinery which illustrates and describes

Prosperity

It's a magic word. It is a word more frequently used than four-fifths of the nouns in the English language. It is a typically American word, forceful, rounding and satisfying. As applied to conditions, personal and national, it suggests ease and plenty. Carry that idea into the alkali field, and consider

Prosperity Soda (*Blue Label*)

It is a magic product. The union of refined alkali with ammonia has given to the mill owner a product which more thoroughly cleanses than anything previously sold to him.

In the original washing of the yarns and through the various processes of bleaching, dyeing and finishing, the use of Prosperity Soda (Blue Label) tends to the bettering of the product.

**Woolen and Worsted Mills
Hosiery Manufacturers
Textile Plants of All Sorts**

need to investigate the peculiar merit of Prosperity Soda (Blue Label) with ammonia "locked-in." Order a sample lot under our guarantee of satisfaction.

DIFFICULT problems of WINDING and SPOOLING

yarns are being **SOLVED** by using our type of machinery built on the basis to obtain the best results that provide for

WINDING Shuttle Bobbins and Butts. Also Shuttle Cops for Filling, &c., and every class of Knitting Yarns that can be used.

SPOOLING of all classes of yarns. Also **Warping and Beaming** Machines in relation to Yarns, Tapes, etc.

WARPING Our varied class of machinery meets all requirements in all known fabrics where warps are used. Special Machinery for Tape work, both for warps and handling the Tape and Braid.

BEAMING A distinct types of machines to handle Chain Warps.

Patented Winding Machine

For Knitting Yarns

Our latest machine entirely new for winding silk, artificial silk and mercerized cotton on a new shaped cone from the skein. Can be used to produce wonderful results.

Our Guarantee Will Protect You

To prove it, ask your yarn salesman to produce the Altemus Cone. Or send us direct a sample of yarn and we will show you what you can save by using the latest invention which we are confident will revolutionize the future use of yarns from the cone.

Also many other types of machines for handling Carpets, etc.

The above classified list of machinery covers all the latest improvements for producing the best work at least cost.

Bar Belt Dressing Prevents

Waste of Power and Fuel

Because it stops the belt from slipping and causes it to transmit all the Power without being made so tight as to cause unnecessary friction.

This Registered Trademark
Is Your Protection

It appears on each stick of Genuine Stephenson Bar Belt Dressing—the dressing that has held to its uniform quality for 23 years.

This belt dressing surpasses liquid preparations, for there is absolutely no waste in applying it to the belt, and it is put up in sticks or solid form, so that it can be carried about in the tool-box. For these reasons—

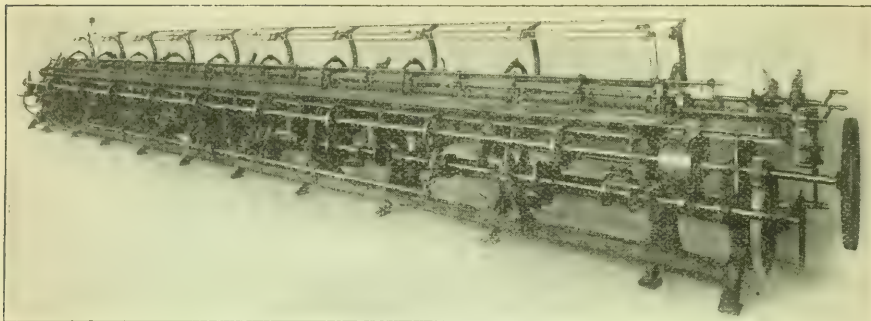

**1 Pound Lasts as Long as 2 Pounds of
Any Liquid or Semi-Liquid Dressing.**

There are two brands, Red Label for leather belts, Green Label for rubber, canvas, or balata belts.

Write us for Price List and Free 1-2 lb. Sample.

THE TANDEM INTERLOCK FLAT SEAM MACHINE

This machine—THE TANDEM INTERLOCK—has revolutionized the manufacture of undergarments, improved the product and cut the cost of manufacture.

It eliminates the objectionable ridge resulting from the seam—sews it with a flat elastic seam and finishes the garment on both sides, hiding the cut edges of the fabric beneath an ornamental interlock stitch.

The wearer of garments made by this machine not only enjoys the comfort the flat seam affords but also the ease produced by the elasticity of this unique stitch.

From the manufacturers standpoint—the machine itself is so constructed as to permit of more ease of handling the product—thus an increase of output is possible. The finished article comes direct from the cylinder, saving the time consumed under the old way of taking the goods off the cylinder.

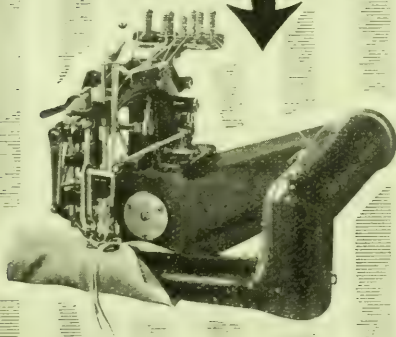

NO SPECIAL BRAND OF THREAD IS REQUIRED.

You will get more actual service from a machine of "UNION SPECIAL" make, to say nothing of the countless superior features they possess, than may even be hoped for in other makes.

There are innumerable other features embodied in this machine which are explained in our special circular. Write for a copy.

Perches on Top as the Most Popular Textile Mill Belting

Schieren Service has put it there—48 years' experience in developing Leather Belting to the highest standard of excellence.

Duxbak has many points of superiority over ordinary leather belting for textile mill use—

Read a few of them on the opposite page

Schieren's DUXBAK Waterproof Leather Belting for

COTTON MILLS. Duxbak is made in all sizes and weights for Cotton Mills from 1½ in. single ply for narrow looms to 6 in. heavy doubles for cards. Duxbak being waterproof is immune to moisture in the spinning room.

WOOLEN MILLS. Mule Belts, Rub Motion Belts, Stripper Belts and Loom Belts are Duxbak specialties.

WORSTED SPINNING PLANTS. Duxbak is so well stretched and cemented that it stands up under the severe requirements of these mills. For spinning and combing we make a special belting stitched on the edges.

KNITTING MILLS favor Duxbak because even the narrow widths will give satisfactory high speed service.

SILK MILLS. Duxbak is uniform—insures even machine speed.

BLEACHERIES AND DYEWORKS pronounce Duxbak “the Belt Supreme” because it is Waterproof, Steamproof and Resistive to Acid Fumes.

The only machine that gives the bursting strength in pounds per sq. in. by a simple operation.

The Jumbo Mullen Tester

Is extensively used by hosiery and underwear manufacturers. It is equally good for testing textile fabrics of all kinds.

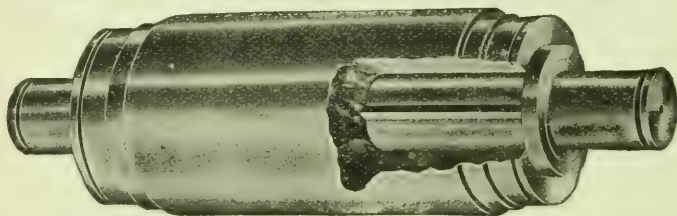

Here are Proofs of Quality

1. The U. S. Government adopted Mullen Testers as the standard for testing paper.
2. The R. R. Freight Classification Committee adopted Mullen Testers as their standard. Every fibre case shipped bears a stamp to show that it will stand "a resistance ofpounds to the sq. in. [Mullen test]."

Ask for descriptive matter and names of

TEXTILE MILLS

using the Jumbo Mullen Tester

Perkins Guaranteed Calendar Rolls

For Finishing Textile Goods, Bleaching and Dyeing Cloth, etc.,

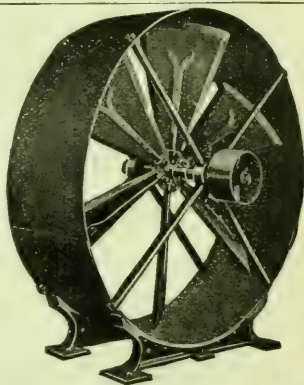

are filled by a patented mechanical process, which insures perfect uniformity in density, a feature which is impossible with the ordinary hand-made rolls. The line includes: Paper Rolls, Husk Rolls, Cotton Rolls and Combination Cotton and Husk Rolls. All are fitted with Perkins' Patented Spline, which prevents slipping or turning around the shaft.

For All Mill Needs—Get A Perkins Ventilating Fan

It is Superior Because:

- (1) The frames, drums, arms, shafts, etc., are STEEL—not iron.
- (2) The blades are adjustable—can be set to any angle—to blow in or out.
- (3) It can be run at high speed—and will run longer without oiling than any other fan on the market—on account of the *self-oiling journal boxes*.

Power Transmission Systems built and installed for driving any fan in any position.

B. F. PERKINS & SON, Inc., - HOLYOKE, MASS.

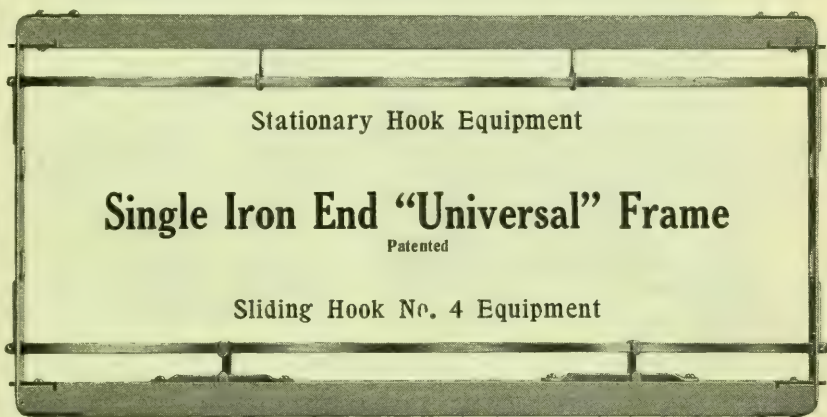

The Flat Steel Heddle

AND Universal Frame

Are playing today a very prominent part in the efficient running of looms

A LARGE percentage of Manufacturers realize the great importance of the Steel Heddle—the heddle punched from *flat cast steel*—with the round cornerless eye, that cannot catch, rub or chafe or pull the Warp Thread—the heddle that adjusts itself automatically on the frame—the heddle that cannot twist or bend while at work.

THE UNIVERSAL FRAME

Stationary Hook Equipment

Single Iron End "Universal" Frame

Patented

Sliding Hook No. 4 Equipment

is used in hundreds upon hundreds of Textile Mills. Why? Because it is built for service—for efficiency—for durability. It is built for real economy—not the fake economy of an original low price. You can have the *Universal Frame* built to fit the peculiar conditions of your mill and your product.

COTTON, SILK, WORSTED or WOOL
THERE IS A HEDDLE AND FRAME FOR THE WORK

From fancy cotton shirtings to canvas—from narrow fabrics to broad silk—from light worsteds to heavy woolen cloths, there is a heddle and frame for your particular kind of work.

We are manufacturers of the best doup heddle the market ever produced. We are makers of the best finished drop heddles and wires you ever had in your mill.

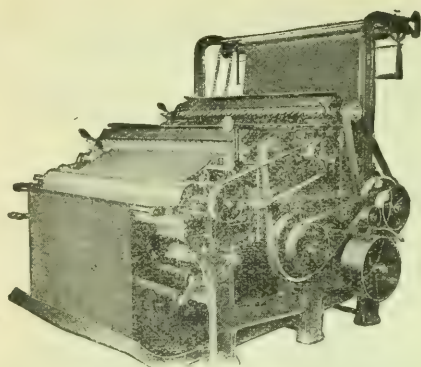

The "Made in America" cast steel Reed Wire, which has created quite a sensation, for all kinds of Reeds, is made in our plant.

These are facts. Their efficiency has been proven so often that the novelty is lost. Do you want a list of users in your particular line? Write to these people yourself. They'll tell you what Steel Heddle Equipment has done for them.

Development of the Textile Industry

THE part played by this organization in the development of the textile industry has resulted in that broad outlook upon the problems of the textile manufacturers that is so essential to the successful solution of their problems, and to the future development of the industry.

Our work includes the rendering of special expert engineering service in connection with all textile problems, the preparation of plans and specifications for the erection and complete equipment of textile mills, including steam and water power plants and the reorganization of textile and other industrial plants.

The firm has a wide experience in the examination of water powers, water power stations, manufacturing and other plants with reference to their improvement and value.

JOSEPH J. SCHOLFIELD

The Reece Hand-Hole Button-Hole MACHINE

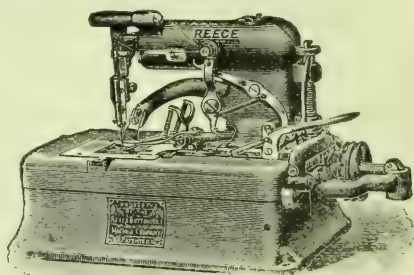

**For Stitching and Cutting
Button Holes in Sweaters**

has twice the capacity of any other button-hole machine. It is simple, speedy, easily operated, and makes a perfect one or two cord button hole that is stronger and better looking than a hand made one. The machine can be used on all sweater work, with or without canvas or other staying qualities.

The Reece Button-Hole Machine

**For Cutting and Stitching Straight Double
Barred Button-Holes in Knit Goods**

makes button-holes from $\frac{1}{8}$ to 1 inch long. Being automatic, its capacity, even with unskilled labor, is double that of any other machine. The superior quality of the work is due to the elastic stitch—no cutting or pulling of the thread is necessary—when taken from the machine the button hole is complete. Samples of work and terms on application.

Fibre and Steel Receptacles

SPAULDING STEEL CLAD CAR—steel outside, heavy fibre inside, is puncture proof and insures against damage to contents. Reinforced throughout by heavy steel angles. Note the bands, cleats and rivets.

SPAULDING FIBRE CAR is made from the best Flax Fibre or Vulcanized Fibre as desired—reinforced with top, bottom and body bands—light, strong and durable—smooth inside and free from splinters.

SPAULDING FIBRE BOXES save time and money, because of their lightness combined with strength. Reinforced throughout—bottoms of fibre or wood as desired. Fibre bottoms are protected by wood shoes.

Seamless Roving Can

made from a seamless tube of highest grade vulcanized fibre, it is absolutely smooth on the inside which is very essential for fine work. Sizes 10 inch and 12 inch diameters only.

ROOT COUNTERS

**Save Countless Mistakes
and Prevent Waste,
Errors and Disputes**

ROOT COUNTERS will register your output with uniform accuracy. They will tell just what a man or a machine is costing. They prevent over-runs.

They are adapted to all textile needs and are necessary where accuracy in counting and cost estimating is desirable.

We make the Bristol, Elm City and Roco Counters, in different styles, for use on looms, baling machines, twistors, dressers, folders, printing and rolling machines, tenter frames, slashers, etc.

Root Automatic Counters are used for counting stockings, sweaters and other knit goods; for measuring cloth, ribbons, velvet, corduroy, etc. They are small, springless, easy and positive in action and fundamentally accurate at all times.

KLAUDER - WELDON

ORIGINATORS, PIONEERS and
LEADERS IN THE MANUFACTURE OF

Dyeing, Bleaching and Scouring Machines

THE fact that Klauder-Weldon Machines have always been recognized as the standard of economic efficiency in Dyeing, Bleaching and Scouring is sufficient reason to believe that they have merits that justify your most careful investigation.

Klauder-Weldons are used in over 1000 textile plants and are built to handle textiles in all forms and processes.

Oilless Bearings

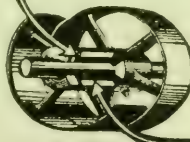

are made of wood chemically treated. They do away with oil, lost time, excessive depreciation, make a cleaner factory, and reduce fire risks.

They are adapted for loose pulleys, friction clutches, counter-shafts, fans, confectioners, electrical, harvesting, insulating paper-box, printing, shoe, spinning, textile, weaving and winding machinery.

Write us and find out just what they will do for you.

The Palmer Improved Adjustable Thread Guide

For Ring Spinning and Twisting

Clamp Plate

2,500,000
in operation

Patented in U. S., July 24, '06, Apr. 9, '07, June 4, '07, Apr. 7, '08, Apr. 21, '08; Austria, Dec. 1, '07; Canada, Sept. 26, '08, May 12, '08; England, July 24, '06, Aug. 29, '07; Belgium, July 24, '06, Nov. 14, '07, Dec. 19, '07, Dec. 28, '07; France, Oct. 2, '06, Dec. 14, '07; Italy, July 24, '06, Feb. 28, '08; Spain, Sept. 3, '06, April 8, '07, Nov. 27, '07, Feb. 28, '08, Feb. 22, '08; Switzerland, June 30, '07, Feb. 26, '08; Japan, Oct. 12, '06, Sept. 30, '07; India, Feb. 19, '07, Mar. 20, '07. Patents applied for in the United States, Germany, Russia and Poland.

This guide supplies an accurate, rigid and permanent adjustment and is attached to the ordinary spinning frame clapper. It has more merits than any other adjustable guide and at a greatly reduced cost. Perfect adjustment saves broken ends, abnormal wear of the rings, and increases the production and quality. Will soon pay for itself.

Send for free sample and circular

Cameron Principle Slitting and Rewinding Machine

for converting wide webs of any kind of material into strips of any width and rolling up the strips into firm coils all at one operation. 10,000 to 15,000 yards of cloth handled by one operator in a nine hour day.

The Same Machine

is also the ideal rolling up machine for wide webs required to be put up in the form of firm even rolls.

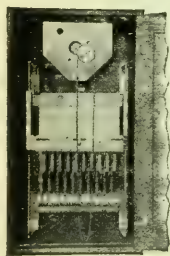

Increase in sales and profits await the manufacturers and wholesalers who are willing to oblige customers by putting up their goods in a form most convenient to handle.

Cameron Machine Co.

THE E. HOWARD CLOCK CO.

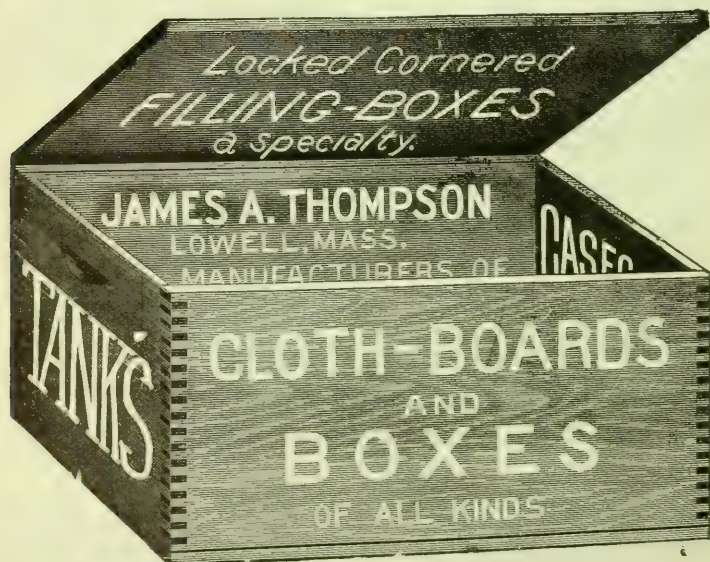

E. A. BIGELOW, Treasurer

Bromfield and Washington Sts., BOSTON, MASS., U.S.A.

67 Maiden Lane, NEW YORK 31 N. State St., CHICAGO

The very latest thing in a WATCHMAN CLOCK RECORD. Entire record sheet always visible at once. Can be used without change from Saturday to Monday, or over a holiday, and a clear record secured.

Please write to any of our offices, New York, Boston or Chicago for particulars

The Number and the Kind of Mills

Reported in the OFFICIAL AMERICAN TEXTILE DIRECTORY,
Arranged by States

The number of mills in the "total" columns is larger than the actual number of separate establishments reported, because where a mill comes under more than one classification, for example, Cotton and Woolen, or Knitting and Silk, etc., it is counted in each classification, which makes duplication in some cases, particularly in Pennsylvania.

WILLIAM FIRTH

Sole Importer of

Asa Lees & Co., Limited

TEXTILE MACHINERY

of every description for Cotton, Wool and Worsted

*Sole Agent for United States
and Canada for*

Joseph Stubbs

Gassing, Winding, and Reeling Machinery for Cotton, Worsted and Silk

Geo. Orme & Co.

Patent Hank Indicators, etc.

William Tatham, Limited

Cotton Waste Machinery

Goodbrand & Co.

Cloth and Yarn Testing Apparatus

Selling Agent for

Joseph Sykes Bros.

Hardened and Tempered Steel Card Clothing for Cotton

United Velvet Cutters

Ass'n, Limited

Corduroy Cutting Machines

Dronsfeld Bros., Limited

Emery Wheel Grinders, Emery Fillet and Flat Grinding Machines

Manufacturer of

The

Dustless Card Stripping Apparatus

Patent Can Tramway

and

Firth "Indicator" Warp Stop Motion

Broomless Floor Sweepers

*Prompt and careful attention given to all orders for machine parts and supplies
Expert fitters' services furnished for overhauling and resetting machinery
Descriptive printed matter with full particulars and price on individual
machines or supplies will be sent upon request*

WILLIAM FIRTH

TWENTY-SECOND YEAR OF PUBLICATION

Compiled by the Textile World Journal

REWARD

To the person who shall *first* inform us of any cotton, woolen, knitting silk flax or jute mill, print works, dyeing (except job dyeing), bleaching or finishing establishment in the United States or Canada* which was in operation on Feb. 1, 1916, and which is erroneously omitted from this Directory, we will pay \$1.00 on the following conditions:

Full and complete information concerning the mill must be sent. By that we mean the name of the company, where located, names of the officers, including superintendent, class of goods made, capacity in machinery, that is, number of spindles, cards, looms, etc., kind of power, whether a dyehouse or not, name of buyer and selling agents.

We will pay the same reward to the first person who informs us of any mill reported as a going concern, which was out of business Feb. 1, 1916.

In recognizing claims for reward, we can only consider them with reference to the circumstances on Feb. 1, 1916, as it is manifestly impossible to include or omit mills which may have started or stopped subsequent to date of compilation.

We especially invite the co-operation of traveling salesmen in the correction of any errors that they may discover.

No other Directory publishers have yet dared to offer rewards for the discovery of inaccuracies.

*The offer of reward does not apply to small custom carding mills with only one or two custom cards for country rolls, to knitting mills with less than four power machines, or to braiding, rubber goods, fire hose, belting or wire covering establishments.

"We are indeed astonished to note the vast amount of daylight created by this paint—especially where we were formerly forced to use electric lights all day. We now find it entirely unnecessary. Agreeably surprised to observe how easy it is to keep clean."

—Knotair Hosiery Co., Philadelphia, Pa.

3,000 other users confirm what this one says

The fact that over 3,000 plants use and praise Rice's Mill White entitles it to your investigation if you are considering repainting. Many of the biggest American mills are numbered among our customers.

By the "Rice Method" it can be used over old cold water paint or white-wash. This has been done in hundreds of factories with excellent results.

Rice's is the Original "Mill White." All others are imitations. It is the only gloss paint which contains no varnish. It is made by a special process which enables us to give a binding **guarantee** that it will remain white longer than any other white paint.

*Write for the terms of this guarantee under
which you cannot lose*

RICE'S GLOSS MILL-WHITE

On concrete surfaces

On inside concrete Rice's Granolith makes the best possible primer for a second coat of Rice's Gloss Mill-White—giving a tile-like enamel finish at no more expense than lead and oil paint.

EXPLANATION OF MAPS AND GENERAL ARRANGEMENT.

The Directory is illustrated by copyrighted maps of the principal manufacturing states east of the Mississippi River, and the Provinces of Quebec and Ontario, showing the location of the textile mill cities and towns. These maps are engraved especially for the OFFICIAL AMERICAN TEXTILE DIRECTORY, and are arranged with special reference to the convenience of those desiring to reach the textile establishments. The Southern, Western, and Central States are arranged in groups; most of the New England and Middle States are shown with separate maps for each State. Under each State heading at the top of right hand pages reference is made to the page of map for that State.

The State maps are divided into square sections, designated by letters and numbers. In the body of the Directory, after the name of the city or town, the square in which it is located on the map is designated thus, in the case of Passaic, N. J.—“Passaic, D-9;” meaning that Passaic will be found in the horizontal section D and the vertical section 9 of the New Jersey map.

Following the letters indicating the location of the town will be found abbreviations of the railroad connections, which will enable one to refer intelligently to any railway guide for his train connections. If the town is not on the railroad, the nearest railroad station is given and the distance from it. The population of the place follows the railroad abbreviations.

It should also be carefully noted that each square is a certain number of miles. Under the title of each map will be found the scale of miles to each square in that map. In this way distances can be very closely approximated, and railroad fares estimated on computation of about 2½ cents per mile in the Eastern States, and 2½ to 3 cents in Southern and Central States for local travel.

The classification of the mill section of the Directory is first, alphabetically by States; second, alphabetically by towns and cities in each State; third, alphabetically by name of mill, under its proper post office address. In some instances the railroad and freight station is not the same as the post office address, and in these cases the proper railroad station is designated.

EXPLANATION OF ABBREVIATIONS.

Under each city or town are grouped *all* the textile mills in that place, without regard to kind of goods made. The kind of mill, i. e., whether cotton, woolen, etc., is shown by the bold face letter at the right.

In order that the general character of the mill may be ascertained without closely reading the data concerning it, a system of abbreviations has been employed as follows:—

C means cotton mill.	W means woolen mill.	S means silk mill.
J means jute mill.	K means knitting mill.	D means dyeing establishment.
Bl means bleachery.	F means finishing works.	Pr means print works.
	Fl means flax mill.	

POWER. The kind of power is designated—steam, water or electric.

DYE. If the mill has dyeing facilities, the word “dye” is used.

S. AGTS. means selling agents. The other abbreviations will be easily understood.

BUYER. In most instances the name of the man who does the buying is given for the larger mills. In smaller mills, or those operated by individuals, the principals usually buy.

POP. Population

DRAPER COMPANY, Hopedale, Mass.

Use ZERO WATER In Your Mill

THERE is only one way—PERMUTIT,
By simple filtration it removes every
trace of hardness. You can dye better,
bleach better, scour better, save soap, dyes
and chemicals, reduce seconds, produce
softer and finer goods.

Write for information.

LOGWOOD

The STANDARD BLACK for WOOL
The ECONOMICAL BLACK for COTTON

LOGWOOD BLACKS can be dyed absolutely at the lowest cost of any possible black.

LOGWOOD BLACKS when properly dyed are handsome and permanent; they do not redden with age but retain their original rich tone and beauty of shade.

LOGWOOD BLACKS add weight; improve the feel of goods and give a depth of shade which can be produced in no other way.

LOGWOOD BLACKS would solve many of your problems.

WRITE US.

SINGER SEWING MACHINES

For use in the manufacture of

Knit Underwear

Singer Sewing Machines are today universally used in the manufacture of knit underwear for the reason that they are the machines best adapted for every known sewing operation. Manufacturers of knit goods quickly realize the

Immense Advantages

which are to be derived from the exclusive use of sewing machines of the reliable Singer make. Singer machines are constructed by experts in the largest and best equipped sewing machine factories in the World. All parts of Singer machines are interchangeable.

Sewing operations on knit goods accomplished on Singer machines include:

- Seaming
- Seam Covering
- Overedging
- Overedging and Trimming
- Button Staying
- Stitching on Collarettes
- Facings
- Stitching on Labels
- Stitching on Straps
- Tacking
- Blind Stitch Hemming
- Eyeletting
- Fancy Stitching
- Stitching on Lace
- Sewing on Buttons
- Making Buttonholes
- Shell Stitching

Free Samples of Work and Full Particulars

The Cotton Industry would need 21,000 more weavers today
were it not for the Northrop Loom.

DRAPER COMPANY, Hopedale, Mass.

"Proctor"
Cotton Dryer
Single Conveyor Type.

"PROCTOR" Dryers are built by the oldest and largest American manufacturers of drying machinery.

They are designed by the best dryer engineering talent procurable, constructed in shops where nothing but drying machines are built, and made of only the best and finest materials.

The "Proctor" Dryer is guaranteed not only to dry your stock at the lowest possible cost, but to stand up under hard, continuous wear.

Write for catalog, stating material to be dried.

What Cudahy thinks of the "Proctor"

"Our Proctor Dryer is giving us absolute satisfaction. Since installing the Proctor, we have had no trouble whatever with our drying. We cannot imagine a machine that would do better work than the Proctor."

What Kind of Silk Yarns Do You Use?

Whatever you make in silk, whether it's gloves, hosiery, handkerchiefs, mufflers, cravats or sweaters, to maintain a high standard of quality for your goods you must use the best yarns. If from the immense variety of standard grades of

Cheney Silk Yarns

there is none that just suits your particular need, we'll be glad to make up for you a special order of any grade in any form. With our three-quarters of a century's experience in meeting the demands for this class of trade, and our unusual manufacturing facilities, we are enabled to offer better quality yarns, at shorter notice, than you can get elsewhere.

Send for quotations and samples of Cheney Silk Yarns. Furnished in the gray or dyed; spun silks, organzines and trams; doubles and singles; on spools or in the hank; on shuttles, bobbins, paper tubes, cones or warps; also ball warps or any desired form.

C H E N E Y B R O T H E R S

Silk Manufacturers

4th Avenue and 18th Street, New York

The Yarn Trade Index

In this department will be found classified lists of manufacturers of different kinds of yarn, who sell their product. So far as possible the sizes of yarn which are made are given and the form in which the yarn is put up. Dealers and commission merchants are not included in this list. There is a separate list following the list of yarn manufacturers in which are included such firms.

The publishers will be pleased to receive notice of any corrections that should be made.

If any kinds of yarn are wanted which are not found in these classified lists, the publishers can probably supply the addresses of manufacturers or dealers from whom they can be obtained.

ALLEN PATENT KIERS

"ALLEN INJECTOR" KIER
 As Illustrated

"ALLEN WORCESTER" KIER
 Electric Driven Circulator with Indirect Heater

"ALLEN HYDRAULIC" KIER
 For Raw Stock. Unloaded in 30 Minutes

Our new "Worcester" Kier is mechanically correct.

No live steam is admitted to Kier.

Let us show you why we can obtain absolutely uniform results with less consumption of steam in this type of Kier.

Many of the largest mills of the country are installing these Kiers.

Let us show you how you can improve on your present system.

Write us.

DYERS

COTTON WARPS AND COTTON YARNS

FAST BLACKS A SPECIALTY

EMERALD AND WESTMORELAND STREETS

PHILADELPHIA

THE ONTARIO DYEING CO., INC.

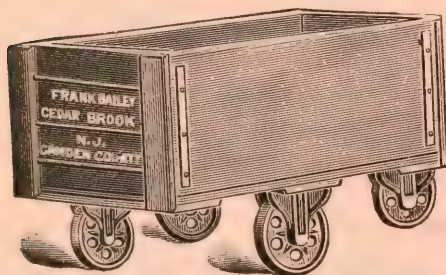

Ontario and D Sts., Philadelphia, Pa.

**MERCERIZERS
CONERS and WINDERS
DYERS of COTTON
SKEINS and WARPS**

**FINE YARNS and CROSS
DYES
Also FAST BLACKS
A SPECIALTY**

Have You Ever Stopped to Consider What Tangles and Tears Your Skein Yarn;

what causes so much waste; why there is so much trouble in your winding, and so many knots in your yarn? Have you ever examined your dye sticks, dry poles and your trucks, to see if your sticks are smooth, and that your trucks have no places for yarn to catch on and tear the skein? It would pay you to go over these things once in a while. This would save burling and mending, and would help your production in the loom.

I am now supplying over 700 mills and dye houses in U. S. and Canada with DYE STICKS, drying and sulphur house poles, wringing sticks, trucks for dry rooms, dye houses and mill purposes. My trucks have self-oiling wheels. They are smooth. Yarn will not catch on them. They are properly balanced. I build any truck required.

Let me know what you need. Give me a chance to demonstrate my goods.

The Name "DODGE" on Shoddy Machinery Is a Guarantee of the Best That Money Can Buy

The Latest Dodge Shoddy Picker

With Improved Non-Clogging
Condenser

Makes fire-proof gauze room unnecessary, saves space and reduces fire hazard. Picked stock always in sight, and easily removed. Equally efficient on fine or coarse work. Equipped with Imported Ball Bearings. "Bit" Attachment insures better and more uniform product. Send for details.

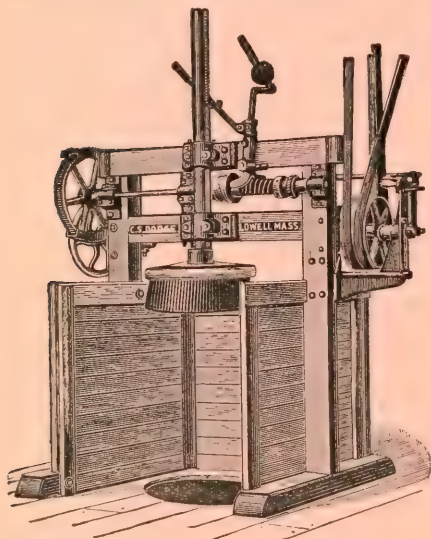

The Dodge Bagger

For Bagging Wool Noils,
Shoddy and Waste

It Saves Money on Bags, Storage
Cartage and Freight

Makes bags of uniform weight. Automatically puts 20 to 40 lbs. more to the bag than by old methods. Put in on trial. Satisfaction guaranteed.

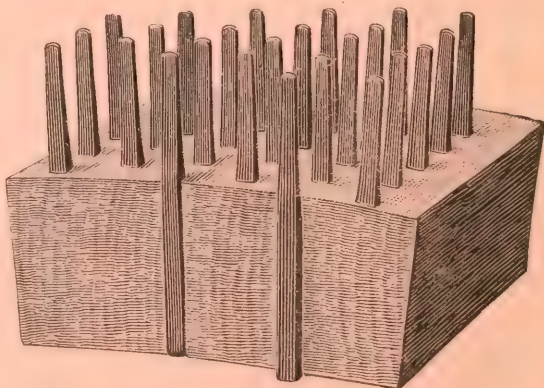

Dodge Picker Pins

Always Self-Sharpening

Dodge's
Patent Hot Forged
Picker Pins

are lagged in White Pasture Beech or Rock Maple of the best quality. Warranted not to shrink nor split.

Dodge Machinery is Sold on Its Merits—Satisfaction Guaranteed

A Complete Catalog of all

Textile Books

OUR descriptive catalog contains a list of all the books in the English language on textile subjects that are in print and that are of present value, classified under the different subjects to which they pertain. This catalog should be in the possession of every mill man. It will be sent free upon application. New books on textile subjects are being published frequently. We can supply any textile or technical book, whether of our own publication or not, at lowest prices. We can also give information and prices of foreign textile publications, etc. We are headquarters for everything in the line of textile literature and information.

and Academies admitted without
examination.

For Catalogue address

Charles H. Eames, S. B.
PRINCIPAL
Lowell, Mass.

The New Bedford Textile School

This school is located in New Bedford,
Mass., an attractive residential city situ-
ated on Buzzards Bay, and the largest pro-
ducer of fine cotton yarns and fancy woven
fabrics in this country.

Three year diploma courses in the fol-
lowing subjects: Cotton Manufacturing; Tex-
tile Designing; Textile Chemistry; Dye-
ing and Finishing; Seamless Hosiery
Knitting; Latch Needle Underwear Knit-
ting. Mechanical Drawing, machine shop
practice, steam and electrical engineering
as applied to textile plants, given in con-
nection with the above courses.

Special shorter courses in the above sub-
jects, for which certificates are given, may
be arranged by students desiring them.

*Every instructor is a man of special
training and broad practical experience*
Seventeenth year. Many graduates filling
remunerative positions of trust and re-
sponsibility.

MILLS CLASSIFIED ACCORDING TO PRODUCT

Yarn mills will be found in the Yarn Trade Index, beginning on page 393.

Knitting mills are not included here, as separate classified lists in great detail are contained in the American Directory of the Knitting Trade; price \$1.50.

Full particulars and data about mills in the following list will be found in the Mill Section of the Directory, where they are arranged according to location. Quick reference to each mill may be had from the Alphabetical Index to Mills.

MANUFACTURERS OF COTTON GOODS

The classifications of manufacturers according to product are arranged alphabetically under the following headings. Some fabrics are not listed separately, to avoid duplication, but the headings under which they will be found are indicated in this index, as for instance, "Canton Flannel, see Flannel, Cotton."

Absorbent Cotton.
 Awning Cloths, see Tickings.
 Bagging.
 Batting.
 Bed Spreads.
 Bell Cord, see Cordage.
 Bindings, see Tapes.
 Blankets.
 Book Cloths.
 Braid, Cotton and Wool.
 Brown Sheetings, see Sheetings, etc.
 Buckram, see Book Cloths.
 Cambrics, see Sheetings, etc.
 Canton Flannel, see Flannel, Cotton.
 Carpet Linings, see Batting.
 Chambrays, see Colored Cotton Goods.
 Clothes Lines, see Cordage, etc.
 Colored Cotton Goods, Inc. Dress Goods.
 Comforts.
 Converters' Goods.
 Convict Stripes, see Colored Ctn. Goods.
 Cordage, Cords, Lines, etc., Cotton.
 Corduroy, see Plush, etc.
 Cottonades.
 Couch Covers, see Upholstery Goods.
 Crash, see Towels and Toweling.
 Crinoline.
 Crochet Quilts, see Bed Spreads.
 Damask.
 Damask Towels, see Damask.
 Denims.
 Dimities, see Fancy White Goods.
 Dobby Goods, see Fancy White Goods.
 Domets, see Flannel.
 Draperies, see Upholstery Goods.
 Drills, see Sheetings, Shirtings, Drills, etc.
 Ducks.
 Elastic and Non-Elastic Webs, see Webbing.
 Elastic Goods, see Webbing.
 Fancy Towels, see Towels, etc.
 Fancy White Goods.
 Fine White Goods.
 Felts, Cotton.
 Fly Nets, see Hammocks.

Gauze Ctn. Goods, see Mosquito Netting.
 Gingham.
 Haircloth.
 Halter Straps, see Webbing.
 Hammocks.
 Hickory Stripes, see Colored Ctn. Goods.
 Hollands, see Shade Cloths.
 Jacquards, see Fancy White Goods.
 Jewelers' Cotton, see Batting.
 Lace.
 Lawns, see Fine White Goods.
 Lenos, see Fancy White Goods.
 Linings, see Colored Cotton Goods.

MANUFACTURERS OF WOOLEN AND WORSTED GOODS

The classifications of manufacturers according to product are arranged alphabetically under the following headings. Some fabrics are not listed separately, to avoid duplication, but the headings under which they will be found are indicated in this index, as for instance, "Skirtings, see Cloakings."

Beavers, see Overcoatings.
 Blankets, Woollen.
 Braids, see Index to Mfrs. of Cotton Goods.
 Broadcloth, see Men's Wear, Woollen.
 Bunting, Worsted.
 Camel's Hair Cloth.
 Carriage Cloths.
 Casket Cloths, see Carriage Cloths.
 Cheviots, see Men's Wear, Woollen and Worsted.
 Clay Worsteds, see Men's Wear Worsted.
 Cloakings.
 Cotton Worsteds, see Men's Wear Worsted.
 Coverts, see Overcoatings.
 Doeskins, see Men's Wear Woollen.
 Dress Goods, Woollen and Worsted.
 Fancy Cassimeres, see Men's Wear Woollen.
 Felts, Wool.
 Felt Boots.
 Flannels.

Horse Blankets, see Blankets.
 Jeans.
 Kerseys, see Overcoatings.
 Meltons, see Overcoatings.
 Men's Wear, Woollen.
 Men's Wear, Worsted.
 Mohair Dress Goods, see Dress Goods, Wool and Worsted.
 Outing Flannel, see Flannels.
 Overcoatings.
 Paper Makers' Felts, see Felts.
 Plush, see Index to Mfrs. of Cotton Goods.
 Robes, see Carriage Cloths.
 Satinets.
 Serges, see Men's Wear and Dress Goods.
 Shawls.
 Skirtings, see Cloakings.
 Tibets, see Overcoatings.
 Vestings, see Men's Wear Worsted.
 Wadding, Wool.
 Wool Bats, see Wadding.
 Wool Comforts, see Wadding.

ALPHABETICAL INDEX

TO

The Textile Establishments

OF THE UNITED STATES AND CANADA

The following index is an alphabetical arrangement of all the textile establishments in the United States. Following the name and address of the establishment, the character of the mill is designated by letters, thus:

(C) means a cotton mill (K) means a knitting mill (Bl) means a bleachery
(W) means a woolen mill (Fl) means a flax mill (F) means a finishing establishment
(S) means a silk mill (D) means a dye works (J) means a jute mill

The number which follows indicates the page upon which the full particulars of the mill will be found.

It frequently happens that an establishment is listed under two names, viz. proprietor's or company's name and also the name of the mill, as, for example, Wm. F. Read & Sons Co., Victoria Mill, Philadelphia, Pa. In the alphabetical index this is listed as follows: Wm. F. Read & Sons Co., Philadelphia, Pa., also Victoria Mill (Wm. F. Read & Sons Co.), the page number being given in both instances, but in the case of the second name the address is not given, so that if this index is used for addressing purposes, no duplicates will be made if directed only to the names which have addresses.

As the body of the Directory is arranged alphabetically by states, towns and establishments, it is, therefore, self-indexing, and any mill can readily be found through one or the other system of classification, viz., by its name in the alphabetical index or by its location in the body of the book, where full particulars about each mill will be found.

A REVELATION IN EFFICIENCY

The K-A Electrical Warp Stop

A Mill Manager who had purchased some "mechanical" warp stops was induced to try K-A. Result: He equipped the balance of his mill with K-A, and said he had made a mistake in his first selection. ¶ A Worsted Mill, after equipping 90% of its looms with another warp stop, adopted K-A for the rest.

Mill Men, in new positions, who have used other warp stops, select the K-A.

Some mills have abandoned other kinds of warp stop and have substituted K-A.

The Mossberg Wrench Co., Central Falls, R. I.

SIM-PULL and SIM-PLEX AUTO-LOCKING BELT SHIFTERS and COUNTERSHAFTS

AWARDED A GOLD MEDAL BY THE
AMERICAN MUSEUM OF SAFETY

AT THE
SAFETY and SANITATION EXPOSITION, DEC., 1914
IN NEW YORK CITY

*Recognized as Approved Safety Devices by
State and Corporation Inspection Departments*

The belt is locked against creeping. A PULL unlocks, shifts and relocks the belt.

"Arguto Oilless" Bearing in the loose pulley removes a dangerous oiling operation.

"Bristo" Safety Set Screws in pulleys. Used by mills as well as by machine shops.

Insure Against Compensation Claims

Preserves Wood Everywhere

Prevents decay and doubles life of mill timber, shingles, tanks, etc.

Greatly retards warping, checking or splitting. Protects indefinitely.

No increased fire risk. Safe to handle. Always ready for use.

Applied by brushing, spraying or open tank dipping. Simple!

Cost, including labor and equipment, from $\frac{1}{2}$ to 2c. per square foot,

or \$5 to \$12 per 1000 feet board measure. Pleasing nut-brown color.

The only chlorinated wood preservative—the only manufactured coal tar oil antiseptically intensified to secure permanence of toxicity. Chemical standard unvarying since 1876. 40 years of service. RESULTS!

Get Circular 51 "How to Judge a Wood Preservative."

Sarco Temperature Regulator

FOR TANK, DYE BATH and ROOM REGULATION

*No Compressed Air No Flat Diaphragms No Electricity
No Gas Expansion No Metal Expansion*

This Temperature Regulator can be used for the regulation
of temperature in dye tubs, to maintain them at the proper
boiling temperature.

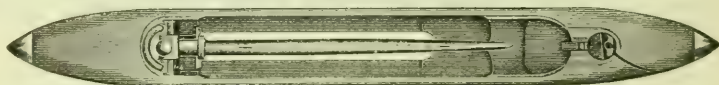

The Sarco is constructed on a new principle and supplies
its own motive power. It is cheaper to install and costs
nothing to operate.

To keep your costs down—**TO INSURE FIGURED PROFITS**—make sure of **main-
taining Continuous Capacity** Production of finely woven cloth. Carefully woven
cloth (besides satisfying your customers) cuts the cost of and saves time in burling
and sewing.

In proportion to the first cost, there are perhaps no means more profitable and eco-
nomical for favoring quality and quantity of loom production than in having us build
you a shuttle designed to weave with greatest efficiency under your special conditions.
When sending us that **RUSH** order, outline your conditions and mail shuttle and full
filling carriers.
